Barbara:

The draft version of the Gulfco workbook submitted to you on December 31, 2009, with revisions to the Materials tab has been completely QC'ed. The only change made was a formatting issue with one cell. However, the QC reviewer checked images for each pair of entries with the same job number. She determined they were all exact duplicate pairs, including the redactions. Please let me know if you would like any comments about those pairs of entries or any other information added to the spreadsheet before GRB submits a revised version.

Thank you

Louise

Barbara:

Attached is a revised workbook for Gulfco with the SDMS references added to the Materials tab. GRB also added a Comments column on the right to list which files are redacted. This submittal has not been thoroughly QC'ed because of reduced personnel today and so is considered a draft. It will be QC'ed on Monday, so please let me know if there are other changes you would like done.

Have a very Happy (and safe!) New Years celebration.

Louise
